Craig Dooger

age: 32
residence: Destin, Florida
education: Doctorate in Physics
occupation: Data Scientist
marital status: Single

In the vast universe of knowledge, connections are the constellations guiding us to new horizons. I believe in the power of collaboration and mentorship, for they fuel the engines of innovation and discovery.

Craig effortlessly maneuvers through intricate algorithms and extensive datasets, showcasing his precision. He dedicates his evenings to mentoring in online forums, enriching collaborative data science communities with his expertise. His technical prowess not only fuels his work but also cultivates meaningful connections and facilitates knowledge exchange within his professional sphere.

Criteria For Success:

Craig envisions a platform aligned with his values. The ability to connect with fellow learners and experienced professionals not only fuels his knowledge but also allows him to inspire others in his field, fostering a vibrant community of learning and growth.

Needs

- Learning opportunities
- Collaborating with others
- Meaningful connections

Wants

- Share knowledge
- A sense of community
- Guiding younger, inexperienced people

Values

- Knowledge
- Integrity
- Professional growth
- Genuine connections

Fears

- Being disconnected from the scientific community
- Missing potential breakthroughs in science
- Fear of not reaching his goals

Dylan Shaughnessy

age: 16
residence: Oneonta
education: High School
occupation: Student
marital status: Single

OMG that rocket value!

On a usually day I go to school, play some tennis, go to the gym, play some minecraft, and go to sleep.

Criteria For Success:

In order to feel successful, he needs to feel like he can understand what he's being taught, and what it can be useful for.

Needs

- Mentoring app must have video calling
- Must have educated mentors
- Must include text message system

Wants

- Would like the app to show progress
- Would enjoy if mentors were accessible at anytime
- Would be happy if cost for the app could stay low

Values

- The app should be like a game, where there can be enjoyment in progressing
- The app should be aesthetically pleasing

Fears

- The design of the app may be hard to understand
- The app may have bugs that may interfere with the enjoyment of using the app
- The app may not have easy access to mentors at all times
